International Medicare Limited
Message from the
National Professor & Chairperson, IML

International Medical College was established by International Medicare Limited in the year 2000 with the sole aim to provide quality medical education for producing highly skilled medical professionals to serve the nation.

With that end in view, we have been continuously striving to bring excellence in the process of learning and to provide quality services towards the community.

I am happy to say that International Medical College has already achieved wide spread recognition and eminence for its quality education and dedicated service. However, our efforts to transform our institution as a world class institution recognized internationally will keep continuing. International Medical College signed an Agreement of Cooperation with Kean University, one of the oldest and reputed Universities of the United States of America, and under this agreement Kean University assigned one of its Faculty Members to provide teaching English to the students of the College. Faculty and student exchange programs have also been included in the Agreement. This will definitely pave the way to develop the quality of learning of our students.

I welcome you all the prospective students for considering International Medical College as your best choice among alternatives for pursuing MBBS course.

National Professor Dr Shahla Khatun, MBBS, FRCOG, FCPS, FICS
Chairperson,
International Medicare Limited

Message from the Chairman, Governing Body International Medical College

International Medical College (IMC), a Center of Excellence in medical education started its journey in the year 2000 with the vision to become a leading healthcare organization of the country. By the grace of Almighty, we have reached to that point. Its aim is to produce highly capable medical professionals and attracts brilliant teachers, students and researchers globally, so that they can deliver excellent healthcare services to the society at large and improve quality of human life by utilizing resources with comprehensive healthcare mission and conducting research for our country's struggling and distressed community.

Though we started only 20 students, but over the years, the student population of IMC has grown significantly and now, after 20 year of our inception, we have more than 748 students including 206 foreign students pursuing MBBS course in our college. So far 585 students passed out from our College with diverse and dynamic knowledge and training in medical science and entered into medical profession and another 68 students are currently undergoing internship training.

Many of our graduate have entered into postgraduate courses namely FCPS, MD, MS, M. Phil and Diploma. A good number of the IMC graduates have successfully completed post graduation. We have always committed to provide our students with a very congenial learning environment. The fruits of our efforts have been demonstrated in the academic performance of our students in the Dhaka University Professional exams. For the last three years, the pass rate of Final Professional MBBS Examination remained over 75% and an IMC student stood First in combined merit list of Dhaka University Second Professional Examination held in May 2016. This has been a landmark achievement for the college.

IMC is the only institution in the country that has international affiliation. IMC has signed Agreement of Cooperation with an international university – Kean University, NJ, USA, a 176 years old state university. Cooperation is in the field of student exchange, faculty exchange, scientific exchange and curricular development. Under this agreement, Kean University Faculties are taking part in promoting educational activities including to teach English as a Second Language (ESL) to our students which is one of the prime requirements for medical professionals to meet the challenges of the day.

IMC also has academic Collaboration with AIMST University, Malaysia and ICDDR'B, Dhaka to benefit the students and teachers of this institution. Not only that IMC is in the process of introducing Basic and Advanced Cardiac Life Support program with American Heart Association Curriculum.

We have also initiated better service for the patients of our 650 bedded International Medical College Hospital through newly expanded Intensive Care Unit (ICU) with all modern facilities. We have a team of well-trained doctors and nurses to provide all the care to patients.

Still, we feel that it is a never ending strives. We intend to open door of opportunities and contribute as much as we can for the fortune seekers of Bangladesh with well-groomed personality and perfect human qualities.

Major General M Abdur Rab, psc (Retd)
Chairman, Governing Body, International Medical College and
Managing Director, International Medicare Limited.

Message from the Principal International Medical College

It is indeed a great pleasure for me to welcome the students who are interested to get admission in the MBBS course at International Medical College, Tongi, Gazipur. International Medical College with an excellent academic staff and beautiful campus provides an ideal setting for nurturing the talents of the bright young students. Established in the year 2000 and with a track record of steady progress International Medical College has played a pioneering role in the development of the health services of the nation.

The college has well secured separate hostel facilities for both boys and girls. There is ample space for games and other recreational activities within the 9 acres college campus. The students are strongly encouraged to take part in all extra-curricular activities.

Faculties of IMC are specially trained to teach students applying modern teaching methodology. Our students become oriented with Evidence Based Medical Science. Integrated teaching techniques are also applied. Our Professors include senior members of profession with vast experience of teaching in Government sector colleges both at National and International levels. We are working to produce WHO recommended Five Star doctors- Care Providers, Decision Makers, Communicators, Community Leaders and good Managers.

A special English Language course is being conducted at International Medical College in collaboration with Kean University, New Jersey, USA. The course is specially designed to improve the communication skills of health professionals and is aimed at improving the competency level for the various Professional examinations.

The Library of IMC is well equipped with recent edition books and Journals. WiFi facility is available on campus with 24 hours access to the internet in order to facilitate learning. The lecture galleries are spacious, air-conditioned and well equipped with modern teaching aids such as multimedia projector etc.

I would like to highlight a unique feature of IMC- that is full academic and hospital computer automation system. Through this a student's academic and clinical activities can be monitored and performance in different exams also be checked through internet. We are making good use of technology and manpower to deliver the best medical education in South Asia.

We are committed to providing the best possible environment to the students and once again welcome you to International Medical College.

Introduction

International Medical College was established in the year 2000 with the aim to provide quality medical education for producing skilled medical professionals. Since establishment International Medical College has grown significantly and has already achieved wide spread recognition for its quality education and dedicated service. Students from both home and abroad are studying in this college in a very congenial environment.

Location

International Medical College is located about 22 km away from the city center of Dhaka at the outskirts of Tongi. It is within 30 minutes distance from Hazrat Shahjalal International Airport, Dhaka, and main Railway station and Bus terminals of Dhaka City.

The Campus

The campus stands in a solitary environment amidst green vegetation, spaced villages, and large waterbodies. Everything combines and converges here to make it a perfect place for learning.

The present campus of the college has an area of about 9 acres of land. It is well protected by boundary wall. The office and all Preclinical and Para-clinical departments are located in the academic building. The lecture Galleries, Classrooms, Dissection hall, Laboratories, Museum, Library and other facilities are suitably arranged in various floors of the academic building.

International Medical College Hospital

International Medical College Hospital is the teaching hospital of the college. It is a 650 bedded multidisciplinary hospital which is located in the proximity of the college building. The hospital is well equipped with modern laboratories, and other facilities such as demonstration rooms providing the best possible bedside learning environment.

Well planned reception, automation system, emergency room, wards, cabins, waiting area for patient, provides best services to the patients.

Reception of IMCH

Emergency Dept., IMCH

Operation Theatre, IMCH

Laboratory, IMCH

Paediatrics Ward

Intensive Care Unit. (ICU)

Eye Department

Radiology & Imaging Department

Allied Institutes/Units of IML

Initially the college started with only MBBS course. Now the allied Institutes/ Unit of the college are:

- ① The B.SC Nursing College: B.Sc Nursing course started in 2007 and Post Basic Nursing Course introduced in 2014.
- ① International Health Technology Unit: B.Sc course (4 yrs) in Laboratory Technology started in 2013.
- ① Global Professional Training Centre (GPTC): This centre started in 2014 located at Khilkhet, Dhaka: This centre conducts USMLE, ESL, IELTS, AMC and other courses for the Professional.
- ① Kryterion Testing Network (KTN): It is located at GPTC. It conducts various online examinations for the professionals.

Facilities for students

Well defined academic and extracurricular activities are carried out in a congenial environment having adequate facilities:

1. Hostel facilities

International Medical College has separate hostels for Boys and Girls. In both the hostels there are separate blocks for foreign students. Hostels are multistoried, secured, beautifully designed, and adequately furnished. Well trained cooks and other staffs are provided for both the hostels.

2. Library with Internet and WiFi facilities

Library is located in the College Building and has a collection of sufficient number of books and Journals. It provides update information to students and teachers. The reading room of the library can accommodate about 60 students. There is a separate reading room for the teachers within the library. College archive also located within the library in a separate corner.

Library remains open from 8am to 9 pm. It has good access to WiFi internet. Students can avail this facility free of cost. A well experienced librarian assisted by assistant librarian takes care of the library and assist students.

3. Laboratories:

Each department is having laboratory for the students.

The laboratories are:

- a. Histology Laboratory
- b. Physiology Laboratory
- c. Biochemistry Laboratory
- d. Pathology Laboratory
- e. Microbiology Laboratory
- f. Pharmacology Laboratory

4. Museums:

- a. Anatomy Museum
- b. Community Medicine Museum
- c. Forensic Medicine Museum
- d. Pathology Museum

5. Transport facility

Students not residing in the hostels are provided with pickup and drop off from certain points in the city. A special transport facility is provided twice a month to the students residing in the hostels to go to the city for shopping or other related activities.

6. Canteen facility

International Medical College is having its own canteen within the campus. The canteen provides quality snacks, breakfasts, lunch and dinner. It remains open from 8 am to 10 pm. It has separate corners for teachers, doctors, students and guests.

7. Gymnasium facility

It is a new inclusion of International Medical College. The Gymnasium is located within the Hospital. Boys, girls, doctors can use this fitness center according to their allotted time schedule.

8. ATM Booth

For the convenient of students ATM booth is located at the main academic building.

9. Mosque

There is a mosque within the campus. Students can say 05 times prayer and Friday prayer in this mosque.

10. Indoor games facilities

Table Tennis, Carom and other indoor games facilities are arranged at the lobby of the college building.

11. Basketball, Football, Cricket, Swimming and other outdoor games facilities

Within the campus there is spacious Playground, Basketball ground and Lake. Students avail swimming and outdoor games facilities.

12. IMC Archive

The college has an archive that preserves all important documents, photos, videos in soft and hard copies. These are available for ready reference for all on specific purposes

Academic activities of the college Faculties

The main strength of the College is its Faculty members. Well experienced and reputed Faculty members are taking care of the academic activities of the college.

Academic Faculty of the college consists of about 104 members comprising of a distinguished academicians with proven teaching and research excellence. Each department and discipline is headed by a professor/associate professor who leads his team to conduct the courses and prepare the students to become future doctor.

Academic Faculty

The list of faculty members are as under :

Phase-1

Department of Anatomy

Prof. Dr. Sheikh Muhammad Abu Bakar, MBBS, M.Phil,
Professor & Head of the Department

Prof. Dr. Md. Harun-ar-Rashid, MBBS, M. Phil,
Guest Professor

Dr. Shakera Akter, MBBS, M. Phil,
Associate Professor

Dr. Auni Kamal, MBBS, MS,
Assistant Professor

Dr. Nilufar Jahan Khan, MBBS, M. Phil,
Assistant Professor

Dr. Md. Faisal Ahmed Bhuiyan, MBBS, Curator

Dr. Mohammad Mehedi Hasan, MBBS, Lecturer

Dr. Md. Saleh, MBBS, Lecturer

Dr. Md. Arifur Rahman Khan, MBBS, Lecturer

Dr. Sara Tanzina, MBBS, Lecturer

Dr. Sumaya Islam Suchi, MBBS, Lecturer

Dr. Ammatun-Nur-Anto, MBBS, Lecturer

Department of Physiology

Prof. Dr. Mohammed Montasir Islam, MBBS, M. Phil,
Professor & Head of the Department

Dr. Arifa Alam Jelly, MBBS, M. Phil,
Associate Professor

Dr. Hasina Akter, MBBS, M. Phil,
Assistant Professor

Dr. Rumana Yeasmin, MBBS, Lecturer

Dr. Rebeka Sultana, MBBS, Lecturer

Dr. Tomalica Yeasmin, MBBS, Lecturer

Dr. Jannatul Ferdusy Moury, MBBS, Lecturer

Dr. Md. Imam Hasan Akond, MBBS, Lecturer

Department of Biochemistry & Molecular Biology

Prof. Dr. Habib Sadat Chaudhury, MBBS, MD, FCAP,
Professor & Head of the Dept.

Ummel Khare Fatema Khan Mojlish, M.Sc, M.Phil,
Associate Professor

Dr. Arifa Akhter, MBBS, M. Phil,
Assistant Professor

Dr. Hayat Muhammad Faisal, MBBS, Lecturer

Dr. Monzur-A-Khoda, MBBS, Lecturer

Dr. Zubaer Wasit Nasif, MBBS, Lecturer

Dr. Chitra Ghosh, MBBS, Lecturer

Faculty Members of Phase-1

Faculty Members of Phase-2

Faculty Members of Phase-3

Faculty Members of Phase-4

Academic Faculty

Phase-2

Department of Community Medicine

Prof. Dr. Mahmuda Chowdhury,

MBBS, D Med, Ed, M Med, Ed, MPH(CM), MPH(Epid)
Professor & Head of the Department

Dr. Humaira Nazneen, MBBS, MPH,
Associate Professor

Dr. Nushrat Tamanna, MBBS, MPH,
Associate Professor

Dr. Md. Fardous Alam, MBBS, MPH,
Assistant Professor (C.C)

Dr. Taslima Rahman, MBBS, MPH, Lecturer

Dr. Sharif Md. Shahalam Bhuyian, MBBS, Lecturer

Dr. Md. Sazed-UI- Islam, MBBS, Lecturer

Department of Forensic Medicine

Dr. Kamrun Nahar, MBBS, DFM,
Associate Professor & Head of the Dept.

Dr. Iasmin Akter, MBBS, DFM,
Assistant Professor

Dr. Jinat Mustary Liza, MBBS, DFM,
Assistant Professor

Dr. Sanzida Afroz, MBBS, Lecturer

Dr. Snigdha Protim Sikder, MBBS, Lecturer

Dr. Anju Man Ara Nisha, MBBS, Lecturer

Phase-3

Department of Pharmacology & Therapeutics

Prof. Brig. Gen. Dr. Mohd Ashrafuzzaman (Retd.), MBBS, M. Phil,
Professor & Head of the Department

Dr. Begum Rudaba Jahan, MBBS, M. Phil,
Assistant Professor

Dr. Samia Haque Tonu, MBBS, MD,
Assistant Professor

Dr. Sadia Akter, MBBS, Lecturer

Dr. Fahmida Islam, MBBS, Lecturer

Dr. Swarna Saha, MBBS, Lecturer

Department of Pathology

Prof. Dr. Rafiza Khatun, MBBS, Ph. D,
Professor & Head of the Department

Prof. Brig. Gen. Dr. A. Z.Tofail Ahmed (Retd.), MBBS, MCPS, M.Phil,
Guest Professor

Dr. Sharifatun Jannat, MBBS, M.Phil,
Assistant Professor

Dr. Mehdi Ashik Chowdhury, MBBS, M.Phil,
Assistant Professor

Dr. Tanzina Parvin, MBBS, Lecturer

Dr. Azharul Islam, MBBS, Lecturer

Dr. Salma Akter, MBBS, Lecturer

Dr. Al-Amin Hossain Rakib, MBBS, Lecturer

Dr. Kazi Nawshad Hossain, MBBS, MTM,
Associate Professor & Head of the Dept.

Course and Curriculum

Course offered is of 05 years duration plus 01 year internship training. The curriculum approved by the University of Dhaka and BMDC is strictly followed in the college.

MBBS Course: Phase:1- Duration 18 months.

Preclinical subjects: Anatomy, Physiology and Biochemistry.

Phase :2 and Phase : 3- Duration – Phase: 2=01 year, Phase:3=01 year.

Para-clinical subjects: Community Medicine, Forensic Medicine, Pharmacology, Pathology and Microbiology.

Phase:4 - Duration-18 months.

Clinical subjects : Medicine, Surgery and their allied subjects, Gynecology and Obstetrics.

Allied subject Medicine: Pediatrics, Psychiatry, Dermatology and Veneral diseases, Infectious and Tropical diseases, Physical medicine.

Allied subject Surgery: Orthopedic surgery and traumatology, ENT, Ophthalmology, Anesthesiology, Radiology, Radiotherapy, Dentistry.

Academic activities of all phases are co-ordinated by Phase coordinators and Academic coordinator selected by the Academic Council of the College.

Notes :

1. Pathology includes General pathology, Systemic pathology, Hematology, Clinical pathology and Blood Transfusion etc.
2. Microbiology includes Bacteriology, Immunology, Virology, Parasitology and Mycology etc.
3. Medicine includes Medicine in general, Pediatrics, Psychiatry, Dermatology, Infectious and Tropical diseases, Veneral diseases and Physical Medicines etc.
4. Surgery includes General Surgery, Orthopedics Surgery and Traumatology, Ophthalmology Otorhinolaryngology, Anesthesiology, Radiology, Radiotherapy and Dentistry etc.
5. Obstetrics & Gynaecology, Neonatology and Family planning etc.

Teaching aids and Methods

Overhead projectors, Multimedia and other audiovisual equipment's are used as teaching aids.

Seminars and symposiums and clinical meetings are organized on regular basis to ensure the acquaintances of students with the latest development in medical science.

The students are generally taught by lectures, clinical demonstrations, tutorials, and practical ward demonstration, seminars, symposiums, workshops, field visits and residential field site training(RFST), demonstration and autopsy.

College examinations and evaluation

In-course evaluation

The teachers of individual departments regularly assess student's learning through cards containing topics of concerned subjects.

Card final and assessment examinations are held regularly as per schedule given in academic calendar. Students need to obtain 60% marks to pass any examinations. 75% class attendance is also mandatory for the students.

End-course evaluation

The University of Dhaka conducts four professional examinations for 05 years MBBS course. The professional examinations held twice in May and November each year. Pass marks 60% in each of written, oral, and practical/Clinical examinations separately.

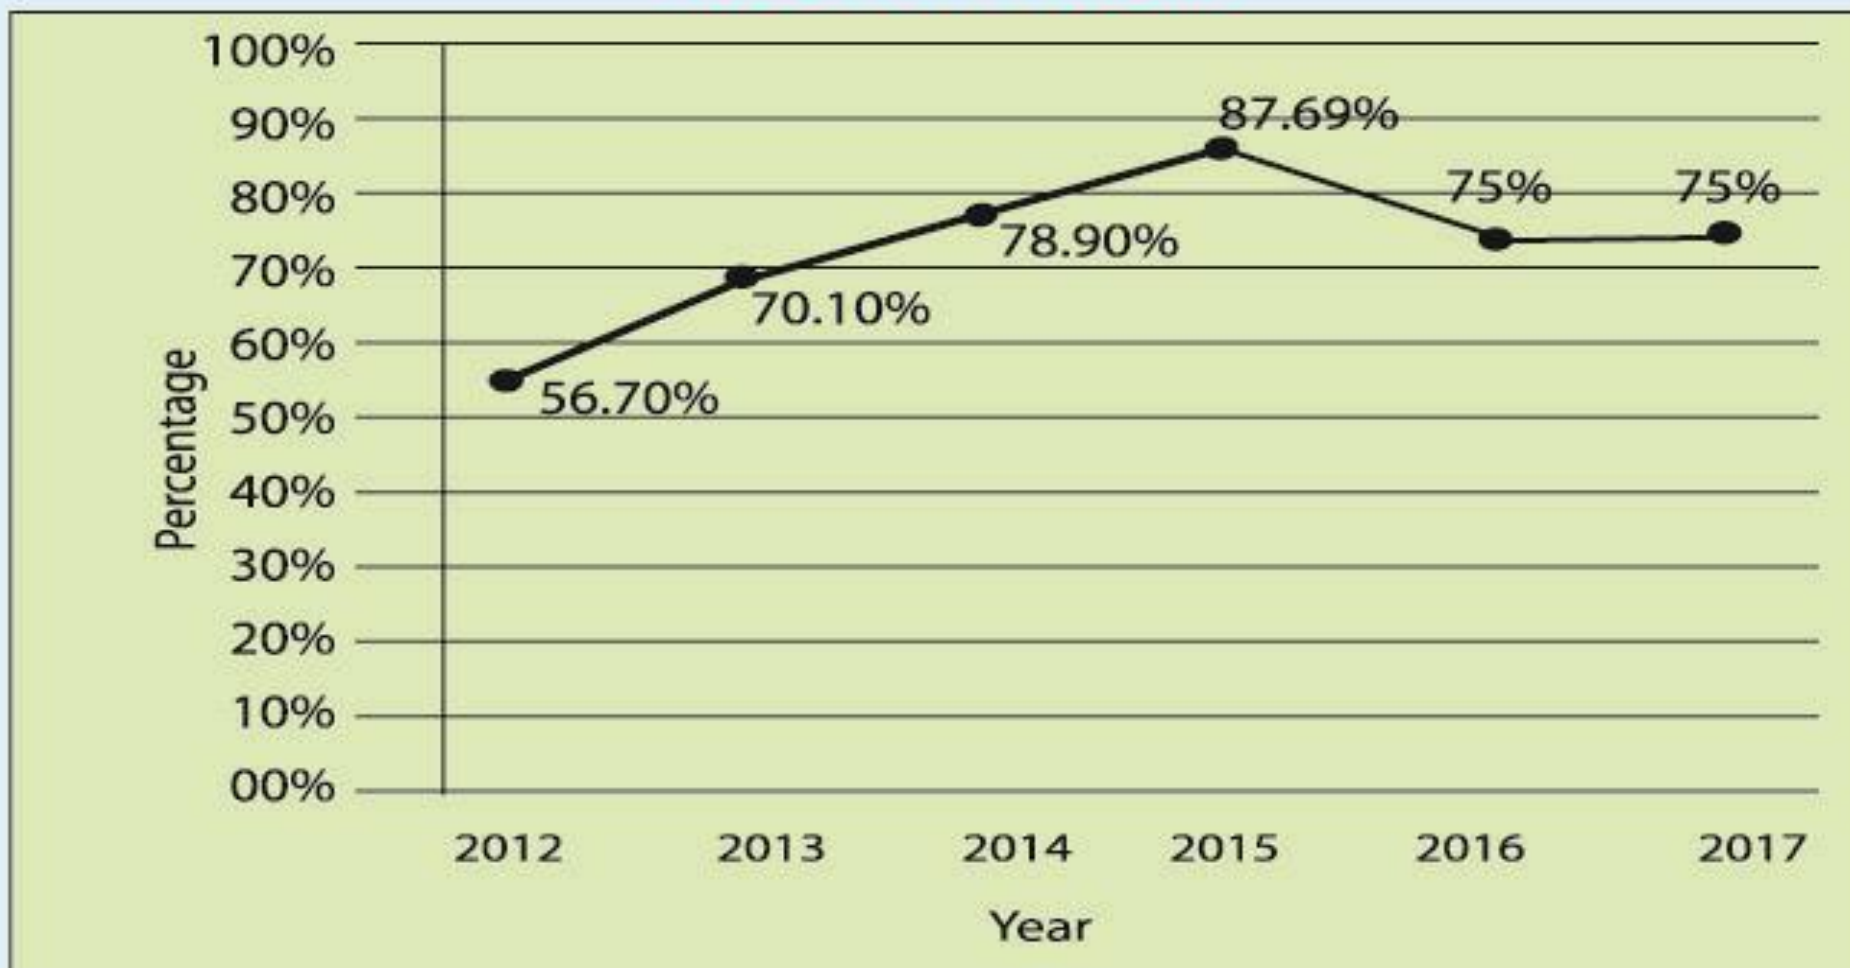

Examination timings and subject wise marks distribution

Examination & Timing			Subjects of Examination				
1st professional MBBS examination at the end of (1½ years) of the course.	Subjects	Formative Assessment	Written	Oral	Practical	Clinical	Total
	Anatomy	20	180	150	150	-	500
	Physiology	20	180	100	100	-	400
	Biochemistry	20	180	100	100	-	400
Total							1300
2nd professional MBBS examination at the end of (2½ years) of the course.	Subjects	Formative Assessment	Written	Oral	Practical	Clinical	Total
	Com. Medicine	10	90	100	100	-	300
	For. Medicine	10	90	100	100	-	300
	Total						600
3rd professional MBBS examination at the end of (3½ years) of the course.	Subjects	Formative Assessment	Written	Oral	Practical	Clinical	Total
	Pharmacology	10	90	100	100	-	300
	Pathology	10	90	100	100	-	300

Total							900
Final professional MBBS examination (at the end of 5 years) of the course.	Subjects	Formative Assessment	Written	Oral	Practical	Clinical	Total
	Medicine & Allied subjects	20	180	100	100	-	500
	Surgery & Allied subjects	20	180	100	100	-	500
	Obstetrics & Gynaecology	20	180	100	100	-	500
Total							1500

Internship Training

The student's successfully passing MBBS examination will have to undergo one year internship training. Within this 01 year, 11 months and 15 days training will be at International Medical College Hospital and 15 days at Upazilla Health Complex. During Internship training subsistence allowances are given to the interns.

Success in Final Professional Examination Last Five Years

English as Second language (ESL) Course

A special English Course is undertaken by all the students who are admitted into the College. This Course is conducted by the faculty members from the Kean University, New Jersey, USA who are specialized in teaching English for Health Professionals. The fee for this course is included in the admission fees & other charges.

Achievement of Students in Professional MBBS Examination-2016 & 2017

Sl.	Name	Examination Year	Subjects	Results
1.	Saima Tabassum	May 2015	Biochemistry	Honours
2.	Md. Rifat Hasan	July 2015	Community Medicine	Honours
3.	Saima Tabassum	May 2016	Community Medicine	Honours & Stood First in Combined Merit List of Dhaka University
4.	Shazia Tabassum	May 2016	Community Medicine	Honours
5.	Roshan Kumar Senapati	May 2016	Physiology	Honours
6.	Saima Tabassum	May 2017	Microbiology	Honours
7.	Saima Ali	May 2017	Biochemistry	Honours

Admission procedure

Admission Criteria : All local candidates selected by the Directorate General of Health Services, through a competitive examination, will be eligible for admission in IMC. Admission will be conducted on first come, first admission basis; while chronology of merit will strictly be followed. Candidates will have to undergo a medical test to prove their physical competency. Students who have passed SSC and HSC or equivalent, having at least GPA 3.5 individually and combined GPA - 9 can apply for admission in MBBS course. Students who have passed HSC or equivalent examination one year before commencing of the session are not eligible to apply. Students with GCE O & A Level or 12th grade should have equivalent certificate from Directorate General of Health Services, Mohakhali, Dhaka. Prescribed admission form and prospectus will be available from the office of the principal and in the city office, **Mailing Address College: International Medical College**, Gushulia, Sataish Bazar, Tongi, Gazipur. Phone: +880 1728768444. **City Office: International Medicare Limited**, House # 01 (Flat-05), Road # 01, Nikunja-02, Khilkhat, Dhaka-1229 Phone: 88-02-8900133, on payment of TK-1000/- (Taka One Thousand) only.

Extra academic activities of the college

Cultural Week

International Medical College is very rich in cultural activities. Every year students voluntarily take part in cultural competitions. One week time is allotted in the academic calendar for this purpose.

Annual Sports

Annual sports is also held every year along with cultural activities.

Annual Picnic

Annual picnic is held just after cultural week. It gives a break of monotonous medical study.

Debating Club

Students of all batches take part in debate competition. It gives them confidence to express themselves in front of audience.

Parents' Day

Parents' day is held to exchange view with the parents of the students. Parents are also allowed to come any time to know the progress and performance of their sons and daughters. They can also get update information about students progress and performance through our online automation system.

Why to choose IMC

Kean University English as a Second Language Certificate Program

Background

In order to train health manpower to have access to world class education, Kean University, New Jersey, United States of America and International Medical College, Bangladesh joined hands to sign an Agreement of Cooperation on 3 April 2010. The areas of Collaboration are exchanging faculty and students, engaging in joint research projects, fostering the exchange of academic publications and information, and promoting other academic activities for students such as intensive language training, summer camps and institutes, and traditional collaborative degree and certificate programs. As part of these efforts, a collaborative certificate Program on English as a Second Language (ESL) was introduced at IMC.

Objective

The objective of the ESL certificate program is to provide necessary English language skills for health professionals. This would address integrative communication skills, including reading, writing, speaking and listening. This would also provide core competencies for IELTS and TOEFL examinations.

Program Design, Faculty and evaluation

The program is of 16 weeks duration with weekly 3 classes of 2 hrs duration (total 96 hrs). It includes modules for listening, reading, writing, and speaking. Students are taught in small groups; each class comprising of maximum 25 students. There are separate batches for medical and nursing students.

The teachers include Prof. Mark Shryock from School of Global Education & Innovation, Kean University, Ms. Lauren Brianna Miller and Mr. Bernard A MacCann from Canada. Presently Mr. A K M Iqbal Bahar M. A. is conducting the ESL Certificate Program.

The center is equipped with modern audiovisual teaching aids. A good number of books and CDs are available as resource material.

The students undergo pretest and posttest at beginning and end of course respectively. Passing the final evaluation is a prerequisite for obtaining the Kean University Certificate for English as a Second Language.

ESL Certificate Program was inaugurated on July 21, 2012. In each cycle, two separate batches (each comprising 20-25 students) are run simultaneously for 16 weeks. Thus, so far, six cycles have been completed till June 2015.

A total of 196 students (from both medical and nursing programs) have successfully completed the certificate course. Certificate from Kean University, USA is awarded to candidates who complete the course successfully.

As a supplemental approach to the ESL Certificate Program, a TOEFL coaching program was started on May 9, 2013. Here students interested for appearing in TOEFL are given special coaching.

Benefits

ESL certificate has been a rewarding learning activity for the students. The students have been benefited in following ways:

- a) They improved a lot communication skills. Students have shown marked improvement in English usage and confidence.
- b) The program also benefitted them in reading medical texts in English, writing medical reports and papers and exploring the medical information highway through internet.
- c) The students would get advantage in higher education abroad due to better communication and language skills.
- d) The health professionals will be able to deliver service in international level.

In totality the graduates of the course would become different as persons, skilled enough to brace the challenges of modern health professions' education and become a community oriented patient caring health-care service provider.

This Memorandum of Understanding is made and entered into this day between
International Medical College and
AIMST (Asian Institute of Medicine Science Technology) University

By means of the Memorandum, International Medical College, Bangladesh and AIMST University, Malaysia agree to seek to develop joint activities and programmes for the purpose of facilitating academic cooperation in the broad field of medical education and research.

Joint activities included in this Memorandum may include:

- Exchange of graduates for elective programs and courses
- Possibility of staff mobility and for AIMST academicians to serve as external experts and/or as advisory panel
- Consideration of Seminars/Workshops/Conferences
- Consideration of research collaborations

It is the intention of both parties to specify particular cooperative projects under the above heading in separate detailed agreements, signed by an authorised representative of each Institution.
